Design and Create. It is engineers week this week. Engineers use maths, problem solving skills, creativity and science to build and design new things. Find out more about engineering week below https://www.engineersireland.ie/Schools/Engineers-Week		This week I would like you to work on your construction skills and make a marble run out of recycled materials. Create a path for a marble and post a video on Seesaw as it travels through your run. I have attached some sample runs below. Some materials you might like to use. • paper plates & straws • wooden craft sticks • cardboard tubes (eg toilet rolls, or kitchen paper rolls – or even sturdier tubes from the inside of cling film rolls) • newspaper (to roll into tubes) • small cardboard boxes from eg cereal, tissues, toothpaste – or milk/juice cartons • plastic drinks bottles • egg cartons (to catch marbles at the end). You'll also need • One large cardboard box to build it all in • Scissors • Sellotape or masking tape • Double-sided tape • Sticky tac • Marbles Check out this video for a sample marble run https://www.youtube.com/watch?v=vYmL8WVyl3w
