Science: Force and Gravity Marble Run		This week I would like you to work on your construction skills and make a marble run out of recycled materials. Create a path for a marble and post a video on Seesaw as it travels through your run. I have attached some sample runs below. Some materials you might like to use. • paper plates & straws • wooden craft sticks • cardboard tubes (eg toilet rolls, or kitchen paper rolls – or even sturdier tubes from the inside of cling film rolls) • newspaper (to roll into tubes) • small cardboard boxes from eg cereal, tissues, toothpaste – or milk/juice cartons • plastic drinks bottles • egg cartons (to catch marbles at the end). You'll also need • One large cardboard box to build it all in • Scissors • Sellotape or masking tape • Double-sided tape • Sticky tac • Marbles Check out this video for a sample marble run https://www.youtube.com/watch?v=vYmL8WVyl3w
